

Anikia Nelson

MD

Physician Consultant and Product Manager

CURRENT RESPONSIBILITY

Anikia is a physician consultant and product manager, and her focus is on product valuation and positioning for clinical components of the MedInsight Portfolio of analytics.

The MedInsight software tools are windows or web-based solutions for providing healthcare analytics for use in a client's environment.

Anikia leads strategic accounts to maximize their use of the analytic suite. She writes blogs, weighs in on interesting industry articles, and facilitates a growing number of client-driven webinars. Some of the tools focuses on are Guideline Analytics, the MedInsight Health Waste Calculator and Chronic Condition Hierarchical Groups. The departmental goals are to respond to the market needs for nuanced and actionable analytics. Anikia helps guide clients to connect Medical Management interventions to strategic analytics for near-term and long-term goal attainment.

EXPERIENCE

Anikia is a physician with training in pediatrics. Before joining Milliman, she led a team of more than 20 public health professionals aimed at increasing cancer screening rates at Federally Qualified Health Centers across the Southeast United States. She was a Howard Hughes Medical Institute Medical Research Fellow and published a peer reviewed journal article on her basic science Hepatology research. Anikia also has experience in electronic health record physician support.

EDUCATION

- MD, Duke University School of Medicine, Durham, NC
- BS, Brain and Cognitive Sciences, Massachusetts Institute of Technology, Cambridge, MA
