

# JASON MUI

Analyst, Pharmacy Informatics

jason.mui@milliman.com

## Current Responsibility

Jason Mui is a software developer and data analyst with the San Diego office of Milliman. He joined the firm in 2020.

## Professional Work Experience

Jason specializes in product development, pharmacy claims analysis, and automation. Jason works across different Milliman teams to support a wide range of projects and clients. Jason is also responsible for development of MyRxConsultant, a Milliman product for pharmacy claims insights and reporting.

## Professional Designations

Jason holds proficiencies in various technical areas like SQL, SSIS, Python, Power BI, and Visual Basic for Applications (VBA).

Jason's work with Milliman includes:

- Data analysis and reporting
- Data cleansing and validation
- Database management
- Performance guarantees
- Pharmacy benefit manager audits
- Pharmacy claims processing and review for implementation errors
- Product development and execution of MyRxConsultant and other Milliman products

## Education

BS Probability / Statistics, University of California, San Diego
